Vocabularies and Test Papers.

The VOCABULARY contains, arranged in the order of the Text, words with which the learner is likely to be unacquainted. The principal parts of verbs are given, and (when there is any difficulty about it) the parsing of the word as it occurs in the Text. The Vocabulary is interleaved with writing paper.

Two series of TEST PAPERS are, as a rule, provided, of which the first and easier series is devoted entirely to translation, accidence, and very elementary points of Syntax; the second, which is intended for use the last time the book is read through, deals with more advanced points.
